American Goldfinch	c	c

7 November 2003 10:50 to 11:10

Point 139 Barren Agricultural field

Species	
Killdeer	9
Horned Lark	14
American Pipit	4

7 November 2003 10:50 to 11:10

Near Point 139 Uplands around Barren Agricultural field

Species	
Red-tailed Hawk	
Anna's Hummingbird	
Nuttall's Woodpecker	
SpPh (=Say's Phoebe)?	
Wrentit	
Bushtit	
Oak Titmouse	
California Towhee	
Spotted Towhee	

Zonotrichia
Song Sparrow
Amki (=American Kestrel?)

7 November 2003 11:56 to 12:20

Point 142 Big Marsh

Species

American Coot	15v
Cinnamon Teal	8v
Ruddy Duck	5f, 1m
American Wigeon	2
Gadwall	1m, 2f

7 November 2003

Nearby Point 142 in upland

Species

Western Scrub Jay
Wrentit
Bushtit
Black Phoebe
Spotted Towhee
Song Sparrow

16 February 2004 07:39 to ?

Point 201 Lat. 34.72269 Long. 120.42708

Species

Lesser Goldfinch	
Mourning Dove	1 or 2
Wrentit	
Spotted Towhee	
Nuttall's Woodpecker	

16 February 2004

Point 219 Pond below refining facility E of Rucker Rd.

Species

Turkey Vulture	lots
Mallard	pr
Killdeer	pr
Wilson's Snipe	1v
Ground Squirrel	

16 February 2004 09:10 to 10:05

Points 222 to 223 Oak Woodland that extends NE to SW and S of the big field

Species

Great Horned Owl?	Nest poss in cypress?
Nuttall's Woodpecker	
Acorn Woodpecker	
Black Phoebe	
Say's Phoebe	
American Crow	
Hutton's Vireo	
Oak Titmouse	
Western Bluebird	
Hermit Thrush	

Orange-crowned Warbler	
Yellow-rumped Warbler	
Song Sparrow	
Golden-crowned Sparrow	
Blackbird sp	fo
Gray Squirrel	
Aniades lugubris	under tin

16 February 2004 10:28 to 11:40

Point 224 Agricultural field

Species

Anna's Hummingbird	12	in trib Sta Lucia Creek in middle of ag field
Black Phoebe		
Horned Lark	25	in trib Sta Lucia Creek in middle of ag field
Blue-gray Gnatcatcher		
California Towhee		
Dark-eyed Junco		
White-crowned Sparrow		
American Goldfinch	2fo	in trib Sta Lucia Creek in middle of ag field
Savannah Sparrow	2	in trib Sta Lucia Creek in middle of ag field
Song Sparrow	2	in trib Sta Lucia Creek in middle of ag field

16 February 2004

Point 225 Big Marsh. This pond is depauperate at this time of year. Why?

Species

Bufflehead	1
No other ducks	
Red-winged Blackbird	s
Marsh Wren	s
Common Yellowthroat	
Song Sparrow	
American Goldfinch	

27 March 2004 05:30 to 07:30

Near Points 240, 241 Spp seen or heard near Big marsh Photos: 4 taken

Species

Eared Grebe	2 not in br plumage
Double-crested Cormorant	1 imm
Mallard	1 pr
Ruddy Duck	1m in br plumage
Bufflehead	1f
Ring-necked Duck	22
Hooded Merganser	1m, 4f
American Coot	2
Belted Kingfisher	1
N. Rough-winged Swallow	2 or 3
Tree Swallow	1
Marsh Wren	very few s
Common Yellowthroat	2s
Song Sparrow	s at dawn but not much later
Great-tailed Grackle	1m
Red-winged Blackbird	<16m, 5f

27 March 2004 05:30 to 07:30

Spp seen or heard in upland nr Points 240, 241

Species

Anna's Hummingbird
 Great Horned Owl
 Northern Flicker
 Bewick's Wren
 American Crow 10 flew NE at 0535
 Cliff Swallow
 Wren
 Orange-crowned Warbler
 Spotted Towhee
 American Goldfinch

27 March 04 08:01**Point 242 Euc, Monterey Cypress, Coast Live Oak****Species**

Mourning Dove
 Pacific-slope Flycatcher
 Warbling Vireo
 Oak Titmouse
 Hutton's Vireo
 Blue-gray Gnatcatcher
 European Starling
 Orange-crowned Warbler
 Townsend's Warblers
 Lesser Goldfinch
 Purple Finch
 House Finch
 Woodrat nests of Euc material

27 March 2004 0908 hrs**Point 244. off property on Davis Creek****Species**

30 April 2004 07:46 to 08:56

Chaparral NW of Davis Creek

Start: Lat. 34.69533 Long. W120.45618 End: Lat. 34.70362 Long. 120.46110

Species

Mourning Dove	1 fo
Cliff Swallow	1 fo
Cooper's Hawk	1 fo high; some uncertainty re ID
Costa's Hummingbird	1c?
Chestnut-backed Chickadee	
Western Scrub Jay	
Bewick's Wren	8
Bushtit	4
Orange-crowned Warbler	1
Spotted Towhee	4
Hutton's Vireo	pr
Wrentit	s _m
California Thrasher	s
Purple Finch	1
Lesser Goldfinch	2c
Woodrat nests	
Fox	
Species' absences most interesting	
Quail, flicker, woodpeckers,	

30 April 2004 09:30 to 11:41

N boundary (Nuevo Rd) enroute to marsh

Species

California Quail	small gp
Western Bluebird	pr
Red-tailed Hawk	on top tall cypress at site of 19 Feb trip

30 April 2004 09:59

Point 225, then around to W side of marsh. Spp seen in marsh only

Species

Turkey Vulture	1
Mallard	3m
Gadwall	3 or 4
Ruddy Duck	1pr, 4m, 3f
Bufflehead	1m
Ring-necked Duck	1m, 1f
American Coot	4
Mourning Dove	2
Western Kingbird	1
Cliff Swallow	10
N. Rough-winged Swallow	2
Tree Swallow	3
Marsh Wren	4 s
American Robin	nest in large oak, 3 large blue plain eggs, 5'
Common Yellowthroat	4s, nest f popped out, in Elymus, <i>Stachys</i> , and Snowberry, 8",
California Towhee	1
Song Sparrow	8
Great-tailed Grackle	1m
Red-winged Blackbird	<14m
Western Pond Turtle	
Diadophis punctatus	1

I did pb of Yellow Warbler and Swainson's Thrush, but got no response.
 I walk under dense, W-facing oak canopy to try to detect Long-eared Owl and flush
 2 large owls, not well seen, assumed to be Great Horned Owl.

Getting too windy to bird productively.

- 11:11** I surveyed beneath the dense oak canopy N of 834 140m.
 I kicked up 2 Great Horned Owls but no nest seen. Continuing N under the canopy the spring
 picks up again about 240m NNE of pt 834.
- 11:27** Warbling Vireo s N34.73193 W120.48021 at spring in willow; Western Scrub Jay.
- 11:57** N34.73256 W 120.48048 Loggerhead Shrike song. I emerged from canopy and spring are to
 road W of BMP. Enroute I found an odd will. No Long-eared Owl. This is 0.32 m N of pt 834.
 Another or same Warbling Vireo here.
- 12:16** Pt 102. A long walk back to car. Enroute I see independent juv Rufous-crowned Sparrow.

4 July 2004

See Davis Creek list under 30 April date where data are included with those totals. Breakdown by creek section

American Goldfinch	s,c

25 July 2004 Summary

I visited 4 areas all in Cabrillo and Amuwu.

1. The N-facing oak woodland (E of N34.72713 W120.48258) on the S side of the large ag field was traversed twice before dawn in search of owls. Only Great Horned Owl and Barn Owl were detected in the vicinity.
2. The spring near N34.72969 W120.48101 adjacent to VAFB had 30 spp with Western Wood Pewee (no breeding evidence) and breeding evidence for Warbling Vireo and Dark-eyed Junco. Loggerhead Shrike also present near here.
3. I surveyed the ag field in Amuwu near pt 108 (N34.73838 W120.47739) where 4 target spp were present. Several Blue Grosbeak were GPS'ed, but no juvs. 5 Grasshopper Sparrows (min 2 juvs) were in a field with *Avena* and *Hordeum*. 9 Horned Lark (among which were 2 min juvs), were in the S end of this ag field. Loggerhead Shrike (1 calling) was also present near here. 3 photos taken of scat that is probably Bobcat, but could be Mtn. Lion.
4. I walked perhaps 200m into a recently burned canyon as far NE at N34.74281 W120.46894 in upper Amuwu. The lovely area should have been covered earlier in the season, but passage was very difficult today. 2 sites for Rufous-crowned Sparrow were recorded.
